

At Creative Telecoms we're excited to announce the Creative Telecoms Control App, the very latest in Telecoms innovation.

## The Creative Telecoms App

Services

Customisable services allow you to change routing and other call plan features on the move.

Record

Recording & upload voice files & marketing messages to your services wherever you are in an instant.

Reporting

Live to the minute reporting giving you vital statistics (answered/unanswered, duration etc) that allow you to plan, prepare and understand.

Media

Instant access to previous recorded messages allowing you to switch to and fro between them at any time.

Using this App will revolutionise the way you manage your communications with your current & potential customers. To use this app you will need to have an account & service/s running with Creative Telecoms. Please call 0800 019 1002 or email [enquiries@creative-telecoms.co.uk](mailto:enquiries@creative-telecoms.co.uk) for more information regarding the App.

Disaster Recovery

Disaster Recovery (DR) allows you the ability to change to your emergency routing plan at the push of a button, any time any place
